DR. J. W. S. HOWELL, who for years was connected with the famous Cook County Hospital of Chicago, was recently elected president of the Great Western Medical and Surgical Sanitarium. He is one of the leading lights in the medical profession, and unquestionably he ranks equal if not superior to anyone of the few medical experts in America today, who, like himself, enjoy a national reputation and practice. When sick people consult him he gives them his honest opinion of their cases, let it be favorable or unfavorable, believing it is far better to know the truth than to live in dread and suspense of what the ultimate results may be in their case.

THERE ARE A FEW PEOPLE everywhere who allow prejudice to kill them, and are not satisfied with confining their prejudice to themselves, but often are instrumental in keeping others from getting well. If you are seeking relief, you should not listen to skeptical friends and jealous physicians, as you owe your health to your family, not to those who would not give you financial assistance.
